Get all the music you need all from one source: **FirstCom/Music House/Chappell.**

This new, improved American music library is so fast and easy to use, it gives you the creative vision to "score" every production perfectly. Along with FirstCom's "best of the best" cuts, you receive hundreds of new tracks composed and produced specifically with the music editor in mind. Each category and disc is like a "short cut" catalog so you select just the right track of music easily and on target. Every cut is designed to support your production with special mixing and mastering techniques to blend better for perfect background — just right to enhance the picture and voice track without getting in the way. We've researched our clients' needs and developed a more extensive, high quality, "user-friendly" library.

Produced in the U.K. by Robin Phillips, former Managing Director of the KPM and Bruton Music Libraries. Featuring universal style and variety specially created for multi-image, video and audio production. With solo instruments and 75-piece orchestras, this library offers everything from hi-tech to nature music; reflective to rock; "new age" to novelty; contemporary to classical; corporate to dramatic; intimate to industrial. The Music House Library stands apart from anything you've heard due to its unique sound and superior scoring capabilities — it's perfect for the audio professional.

Totally updated, newly catalogued and digitally mastered/recorded, this specialty library of archival and new recordings is a musical institution. Famous, internationally-respected composers have been contributing to the Chappell Music Library since 1901. With over 6,000 titles, the Chappell Library offers music for any style or mood: period music, choral, children's, wildlife themes, adventure, travel, dance, historical, comedy, authentic international, solo instruments and short cues. The Chappell Music Library offers a standard repertoire of literally thousands of themes not available from any other source.
